Friday, 22 March 2013

Welcome to ELC/JS Newsletter e-news supporting The Hutchins Early Learning Centre and Junior School community.

The Newsletter allows readers to download and access information about our community and peruse all stories at a glance by selecting and clicking on attached links for further information.

From the Head of Early Learning Centre/Junior School

Dear Parents and Carers

As you know Hutchins is presenting a seminar on Thursday 11 April run by Andrew Fuller, a renowned Clinical Psychologist who has been working with children for 30 years. He specialises in the wellbeing of young people and their families. Andrew is an outstanding speaker with an excellent sense of humour and a good dose of common sense! Andrew has written many books - From Surviving to Thriving - Promoting Mental Health in Young People, Raising Real People - Creating a Resilient Family, Tricky Kids and Tricky People and Life – A Guide. I have read most of his books and attended quite a few of his seminars and would certainly recommend his books and seminars.

One of my favourite books is his book on 'Tricky Kids.' He writes about tricky children, the ones who have found a particular way to get what they want in the world and they keep using that approach over and over again. ‘Tricky children’ can often be difficult to raise and teach but they can also become the leaders, movers and shakers of the world if they are handled properly, and if their energy is channelled in constructive ways.

Andrew identifies 6 main types or ‘flavours and some children are ‘multi-flavoured.’

Developing Confidence in Gifted Children
1. **The Manipulators** who are very determined, ambitious and single minded (think Angelica from the Rug Rats or Henry Kissinger)

2. **The Negotiators** who are sharp as a tack and can run rings around you if you are not careful (eg Bart Simpson or Emmeline Pankhurst)

3. **The Debaters** who have a strong sense of fairness and right and wrong and will always argue the point (echoes of Margaret Thatcher, Germaine Greer or John Kennedy)

4. **The Competitors** who must win at any cost and who are often defiant (eg Winston Churchill, Alexander the Great or Lance Armstrong)

5. **The Dare Devils** who are high sensation seekers who love a challenge and thrills and are often fearless, optimistic and impulsive (inspired by the late Steve Irwin, Evel Knievel or Marco Polo would also qualify)

6. **The Passive Resisters** who may be vague, secretive and disorganised. They are often placid and may retreat from life (Mahatma Ghandi and Aung San Suu Kyi are quoted as examples)

If any of your children fit into one or many of the categories above it is well worth reading the book. Andrew writes about the different developmental stages of tricky kids and he offers lots of tips for parents and teachers.

Andrew’s Ten Golden ideas for parenting tricky kids.

1. **They will always outdo you for energy.** Tricky children have turbo-charged batteries. Therefore wise parents limit the number of areas they want to have a positive effect on. Don’t try to do too much!

2. **Two Crocodile brains equals a lot of snapping.** When you get steamed up, you like your child often become about as reasonable as your average crocodile. Two crocodiles talking to one another often equals a lot of snapping. If possible walk away, cool off, calm down, then intervene.

3. **Tricky kids often love intensity and drama or ‘Don’t Mud Wrestle with Pigs!’** Arguing with a tricky child is a lot like mud-wrestling a pig; you both end up dirty but only the pig is happy! Rather than ask a provocative question (which will entertain them and exasperate you.) Turn provocative questions into definite, clear statements. Rather than “Have you cleaned your room (When it is clear he hasn’t!) say ” Let’s get the room cleaned up before dinner.”

4. **What you do is more important than what you say.** This is particularly true for tricky children who often don’t stick around long enough to hear explanations as they are often so busy getting their own point of view across that you just don’t get a chance. Small rituals that we put into family life are a powerful positive force. They build goodwill and routine and, with tricky children routines and rituals are good (eg Sunday lunch, Church, Sport, caring for pets, riding bikes together.)

---

**Enrolments**

Enrolments into some year levels for next year and beyond are at a premium and waiting lists exist. Current and future parents are reminded that entry into the School is strictly by date of application. If you have a younger child in the family seeking entry in the immediate future, or family or friends who are considering Hutchins for their son, you are encouraged to submit an application form as soon as possible. Application forms can be downloaded from the Hutchins website or by contacting Emma Griffiths, Enrolments Assistant on 6221 4236.

**For Longer Absences**

Parents are asked not to take their sons out of school during the term wherever possible. However, we do realise that there are often extenuating family circumstances and that learning happens in many different contexts. Where trips are unavoidable please write to the Head of the School so that we are aware of the dates your child will be away. Please also note that for absences greater than four consecutive weeks, a fee equivalent to 50% of the leave period will be charged. For absences up to four consecutive weeks or individual periods of no more than 4 weeks, 100% of the fee will be charged. In
5. **Build resilience in your child.** Resilience is developed in children and adolescents when they have a sense of being loved by their family, a diverse group of friends and an adult outside their family who likes them.

6. **Mind what you do with them just before they go to sleep.** What happens just before going to sleep gets processed into long-term dreams. What you say to your child before he goes to sleep is what he will remember most. The old adage of 'never go to sleep on a fight' is right.

7. **Know their friends (and feed them).** Any parent who knows their child's friendship group is in a powerful position. The best way to know kids is to feed them, have them over to stay.

8. **Look for Conversation Fuel.** Keep up the communication. Ensure that you are making time to talk and discover more about what your child likes and does. Eat together at the table and don’t eat while there are any electronic distractions (eg turn off ipods and television).

9. **Timing is Everything.** Catch your child at the right moment. It takes time for them to process your requests. If you have teenagers, this is especially important. Make a request or a suggestion then move away. Return periodically to check on and applaud progress. For example you might say, 'Please feed the cat' and then move away. Come back after a few minutes and say, 'Ah good, you’ve raised one arm.’ Leave again. Return after a few minutes and say, 'Ah good, the cat is nearby.'

10. **They need you! Be a Fierce Friend!** Tricky children need more time from their parents than other kids. They need time to feel loved, they need time to learn to curb their more erratic impulses and they also need time to feel they can give something back as well. Tricky children need their parents to be a ‘fierce friend’ not a ‘friend.’

A fierce friend is someone who:

- Treats their relationship as if there is no way out
- Acts as if they are always on their child’s side and
- Is not going to put up with ‘rubbish’.

Jenny Manthey
**Head Early Learning Centre/Junior School**

The Headmaster and the President of The Hutchins School Parents' Association warmly invite you to attend this seminar from Andrew Fuller.

Date: Thursday 11 April
Where: Terence Butler Auditorium

Withdrawing a Student from K-6?

Parents are reminded that a full term’s written notice of intention to withdraw a student from Hutchins must be provided. If the School does not receive this notice then a half term’s tuition fee may be charged.

Notice in writing can be directed to **Emma Griffiths**, Enrolments Assistant, by post or email.

School Uniform Store

The School Uniform Shop is located at 195 Churchill Ave Sandy Bay and can be contacted on 6225 0422.

Trading hours are Monday, Wednesday and Friday 8.30 am - 4.00 pm. (closed on Public holidays).

Updates to Student Health Information

Has there been a change to your son's health including allergies that we need to know about? Please send any changes to your son's health information to **Rachel Lucas**, Debtors Administrator.

**Term Dates 2013**

**Term One**
4th Feb until 19th April

**Easter Break**
Friday 29 March - Tuesday 2 April inclusive

**Term Two**
6th May to 5th July

**Term Three**
23rd July to 27th September

**Term Four**
14th October to 10th December
Time: 7.00 pm - 9.00 pm
Tickets: This is a free event, however tickets are limited.

Please RSVP and book your tickets by Thursday 4 April online here.

Growing Up Program

Many parents have requested good books or websites that may help them at home to continue the good work that Kerry and Victoria have been doing in the ‘Growing Up Program.’ Below are a few of the books that are available from Family Planning Tasmania 421 Main Road, Glenorchy as well as a website that may help.

http://www.abc.net.au/health/features/stories/2013/03/14/3715496.htm

• Secret Boys’ Business-About the changes that occur in boys’ bodies during puberty and beyond.
• Special Boys’ Business-This has been written for boys with special needs, including intellectual disability, physical disability, communication disorder and autism.
• My Body Rules-An interactive story book aimed at supporting you to undertake protective behaviours education with your child to aid in increasing their safety and protection.
• So That’s Where I came from-Is a story about children keeping safe, in a style that is fun, positive and protective. Will answer every question about the facts of life.
• Everyone’s got a bottom- Children keeping safe in a style that is fun, positive and protective.
• Hair in Funny Places (Babette Cole)-Ted has seen many children grow up. In his wise but wildly funny way he explains how Mr and Mrs Hormone mix their outrageous potions that turn children into adults.
• What’s happening to me?-Suitable for boys 8 years and older.
• Puberty Boy-explains the transition boys need to go through to become healthy young men.
• Is this normal? Understanding your child’s sexual behaviour.
Easter Egg Competition

This year Hutchins is holding a competition for ELC and Junior School! In this competition Boys will be competing using their creativity and imagination to design an egg or an egg scenario like the pictures below. Prizes will be awarded to the best egg decorator of the grade and 3 major prizes valued at over $50 are up for grabs for the 3 best egg decorators overall! The only requirement is a gold coin donation, which will be going towards the Bonnington Animal Hospital. Entries are due on the Monday 25th of March.

Absences During Term

When a student is absent due to illness (or any other reason) students Kindergarten to Year 2 are required to telephone the class teacher direct on their school extension.

ELC Classes:

| Kindergarten   | 6221 4220 |
| Prep           | 6221 4201 |
| Year One       | 6221 4297 |
| Year Two       | 6221 4213 |

Parents of students in Years 3 to 6 are required to telephone Mrs Priest on 6221 4269.

Kindergarten

In Kindergarten the boys really enjoy their “Show and Tell” (Speaking and Listening) turns. We have had lots of interesting and varied items and we have learnt more about different things. The boys are becoming very confident and accomplished presenters.
Monty told us all about his Nanny's dog, Billy.

Lucas showed us how to wear protective gear at Nors Skog.

**Prep**

Preps have been doing self-portraits of themselves using pastels. They have done a great job.

Please come and visit the Prep Art room to see them on display.

**Year One**

Year 1V have been writing Autumn poems and creating some fantastic Autumn art pieces.

Here is some of our writing.

A FL is starting
U mbrellas keep us dry
T errific colours
U nder the leaves we hide
M um makes hot chocolate
N ights are cold
Angus Bayley

Almost Easter
Under the trees leaves fall down
Trees lose their leaves
Umbrellas keep me dry
Milo keeps me warm
Nights are colder

Lloyd Kacic Midson

Please come into our classroom and have a look at more of our
‘Amazing Autumn Art’

Callum Wherrett’s autumn tree.

Year Two

Year 2 have been making paper helicopters. They are exploring pushes and pulls in air.

Charlie Cooper and Hamish Conner

Thomas Lowes and Andreas Tsiakis

Year Three

Celebrations Project in Year 3

Boys in Year 3 have started to work on their Celebration Project as part of their SOSE studies this term. They are working towards
the Celebrations Expo which will be held in the Year 3 classrooms on Friday 19th April. In preparation for this, boys will need to begin preparing things to decorate their stall, including any artefacts, music, books etc.

The boys might begin to think about a costume to wear to the Celebration Expo, which reflects the celebration they have chosen to research. We are hoping to have a shared lunch on that day as part of the Celebration Expo.

Boys who wish to be a part of this need to think about a food or dish that is associated with their celebration of choice.

** Year Four **

How Time Flies!

As part of our work on time this term, the Year 4 boys have had the opportunity to complete a timeline of their own lives.

It has been a valuable learning experience to enable boys to get to know each other and to reflect with their families on significant events.

The boys were extremely proud of their journey so far and their was great excitement among them as they viewed the creative and informative work of their peers.

Each boys has worked on a self assessment reflection and next week we are all looking forward to the opportunity to experience their individual presentations to their class groups.

We thanks the parents for their support in providing photographs and know the finished results are something that will be able to be kept as a lasting memory.

We can only imagine what might happen during their next 10 years.

** Congratulations to Will Grierson who achieved 5 personal bests in his Athletics events this season at Queenborough. Well done **

James Webb
Year Five

To complete our unit on Hobart's Colonial history, Year 5's have been working in groups to research different aspects of our past. Activities included creating a timeline, comparing Van Diemen's Land to Britain, looking at the history of Port Arthur and studying artwork and landscapes from early times.

Groups used a variety of sources to research their topic and were required to present their findings in a creative way. We were entertained by posters, Power Points, role plays and videos and learnt a great deal about our history.

Hamish and Alex Betts and Trent Stephens

Year Six

Micro-organisms

Year 6 are undertaking a fantastic unit of work on micro-organisms. Through our investigations, the boys have discovered that the growth and survival of living things are affected by the physical conditions of their environment. They are examining the micro-organisms which are useful and also those that are harmful to us.

We are undertaking an experiment which, through looking at 4 samples of white bread, examines the conditions that mould grow the best in. The bread samples are exposed to different conditions including cold, heat, moisture, light and dark. The boys are checking the growth of the mould each day by making an observational drawing and describing the changes.

We have also formed expert groups who are looking at their own enquiry questions under the topics of bacteria, viruses and fungi. The diversity in the questions is amazing and by presenting their research the boys will gain a huge bank of knowledge.

In the coming weeks we will be collecting and examining bacteria
from a variety of places around the school. Just how clean are those computer keyboards?

CONGRATULATIONS to Stuart and Pheobe Hammond on the arrival (last night) of their beautiful baby daughter.

Congratulations to Torin Jones 6Be on his great achievements at the recent State Athletics Championships in Launceston.

He won Gold Medals in the 400, 800 and 1500 M races.

House Swimming

House Swimming – Thorold break the drought!!

Thorold House will have their name engraved on the ‘Hutchins Junior School G. Barclay Cup for House Swimming’ for the first time since 1995 after finishing on top at the Junior School Swimming Carnival at the Hobart Aquatic Centre on Thursday March 7.

In what was a tight battle all day, Thorold sealed their victory with wins in the final three relays to edge out a fast finishing Buckland by a mere 6 points with Stephens and School finishing 3rd and 4th respectively.

Final scores: Thorold 1,615.5
Buckland 1,609.5
Stephens 1,533.5
School 1,509.5

Congratulations to all boys for their enthusiastic participation in the pool, vocal support for their House and exceptional behaviour. Well done to all!!

Some performances of note came from the following record breakers:

Henry Luders [Thorold] for setting a new record time of 1 min 13.98 secs for the Year 6 100m Freestyle.

Oliver Luders [Thorold] for setting a new record time of 1 min 20.89 secs for the Year 5 100m Freestyle.

Taine Sookee [Thorold] for setting a new record time of 21.07 secs for the Year 5 25m Backstroke.

Oliver Luders, Zac Chatwood, Riley Ashlin and Taine Sookee [Thorold] for setting a new record time of 2 min 41.80 secs for the Year 5 4x50m Freestyle relay.

A big thank you to parents and carers for their assistance and support at the carnival. It was greatly appreciated by our boys and staff.

On the day of the Swimming Carnival everyone is busy. As the buses pull away from the school everyone is wondering “who will win?”

As I sit down in my seat my thoughts are drowned by the Stephens House war cry. I can see Mr Berry in the announcing booth. Everything is running smoothly.

One long whistle and the carnival has begun. “Take your marks!” and “GO!” Stephens House is erupting all around me!

Year 3 are about to do 25m freestyle. “Take your marks!” and “GO!” They’re off.

“Could all year 3 and 4 Novelty swimmers please go to the Novelty pool!”

Mrs Knight comes up to me and says “Jamie I think you should go to the novelty pool to report on what’s going on there!” “Ok” I say and go off.

The novelty swimmers under the skilled coach Mr McAloon (whose birthday was on the day) made their way through the exercises gracefully.

I can’t go and report on everything because it’s such a full schedule.

Now we’re up to the last relay. Scores are even, the pressure is on. The brave Year 6 swimmers move to the blocks for the last relay.

And now the Mexican seated dive. First up we have Stephens, and they got a 9. Buckland are next and got an 8. School got a 8
and ... Thorold ...8.

Now Mrs Manthey with the scores.

Fourth: School
Third: Stephens
Second: Bucks
First: Thorold

Jamie Nash 5K

**JSSATIS Swimming Carnival**

The following boys have been selected to represent Hutchins at the JSSATIS Swimming Carnival to be held at the Hobart Aquatic Centre on **Wednesday March 27**.

We wish them the very best of luck!

Year 3: Alan Hamilton, Benjamin Barker, Flynn Ervin, Connor Cheeseman, Will Hale, Matthew Lowther and Jack Parsons

Year 4: Zac Phair, James Webb, Ben Boman, Liam Canny and James Mitchell

Year 5: Chris Law, Riley Ashlin, Axel Moore, Oliver Luders and Saxon Wright

Year 6: Henry Luders, Sajiv Rao, Oliver Warlters, Oliver Burrows-Cheng and Raiden Lemon

**ELC/JS Cross Country Carnival**

The next opportunity for boys to participate in some fun and friendly rivalry between Houses will be our Cross Country Carnival at Dru Point Recreation Reserve, Margate on **Tuesday April 9**.

Specific information regarding this event will be sent home in the coming weeks, but if any parents or carers would be interested in assisting at this event could they please contact Mr McAloon on smc@hutchins.tas.edu.au or 6221 4304.

**Debating**

We are looking for boys in Years 5 and 6 **who like to argue and like to win**!

Joining the Debating Club will help you learn a variety of public speaking skills such as preparing a speech, speaking clearly to an audience, and making a persuasive argument in favour of your point.

Interschool debating will be on a **Thursday in Term 2**, with
some introductory sessions late in Term 1.

Meetings are held weekly on Thursday from 3.30-5.00 pm beginning in Week 9 Term 1 with some basic skills and practice before the Interschool Round Robin in Term 2.

To put your name down, or for more information, please see Mrs Reid in the Stephens Library, or contact via email kate.reid@hutchins.tas.edu.au

Kate Reid - Teacher Librarian

OZGreen

The Year 6 Environmental Leaders and their Committee attended an OzGreen workshop run by Year 11 students, Henry Garrett, James Thompson and Lieven Ndimanyi, joined by Tom Dunbabin, James Tucker, Sam Carmichael and Ko Kawaguchi from Middle School. All of the boys did a spectacular job facilitating the event. The activities and games were all run at a high standard. The younger students stepped up to the challenge and worked extremely well. All of the Year Six boys enjoyed the experience and all learned some new concepts or ideas about how our actions impact upon the planet.

Is one planet enough? The boys looked at their ecological footprint at home and added up their scores. They found that Australia uses 7.8 hap (hectares per person). Global Average is 2.7 hap. To be Globally sustainable we need to be 1.6 hap. India is only 0.9 hap. The boys talked about why. If everyone lived like Australians we would need 4 planets. Globally we are the equivalent of 1.5 planets.

Looking at the Economics of Infinite Growth. (Power Point by James, Lieven and Henry and OzGreen.)

- 1% of people own 40% of all wealth. 50% of people own 15% of all wealth.
- Food- lower production due to drought and global warming, increasing demand, population increase and more meat consumption. There is an increasing cost of food. 350 million face food disaster. The planet needs to double food production by 2050.
- 1.2 billion people haven't got safe water, 2.2 billion people have no sanitation, 7000 people die every day from diarrhoea, most of these are children under 5 years.
- Energy—Increasing demand but limited supply. The price rises and the sources are becoming more risky. We rely
on cheap oil. Renewables are growing which mean that there is a 75% drop in cost.

- Climate Change - Arctic glaciers, permafrost melting, more frequent and more severe cyclones, storms, droughts, fires and floods. It is getting hotter year by year. Temperature could increase by 6.4 degrees. We had the lowest Arctic sea ice since records have been kept.
- 30% increase in CO2 levels 1990 to 2010. Australians are the highest carbon producers per person.

Art recycled materials needed!

Art recycled materials needed, can you help?

We have a couple of projects coming up in the Art Room that need recycled materials. If you can assist with any of these please send along with your son on his art day - 5’s Monday, 4’s Wednesday, 6’s and 3’s Friday.

We need:

Coloured flat plastics – the sides of icecream containers are perfect (cut into flat pieces is even better if you have time!)
One litre milk containers (rinsed please)
Materials to create texture – if you are cleaning out your pantry please don’t throw out any out of date pasta, rice, cous cous etc. Anything that can be glued and won’t perish we would love to have!

Rebecca Terry -- Junior School Art Teacher

Developing Confidence in Gifted Children
PALM SUNDAY - Getting Messy at the Cathedral

Messy Church is a time for the children in the Cathedral itself. As we mark Palm Sunday with craft, songs and stories, and... an appearance by a ‘real live donkey.’ It’s a time especially for one to seven year olds, but can be enjoyed by all.

Beginning at our normal time of 4.00 pm, in the Cathedral this coming Sunday, March 24. More information about Messy Church and other Easter Services go to saintdavids.org.au
